

**WO CLOUD**

## Managed hosting services

Purchasing and maintaining the infrastructure needed to run WideOrbit's solutions can be challenging and time consuming. Take advantage of WideOrbit's fully hosted network service to implement a secure and optimized environment without the headaches of contracts, procurement or managing multiple vendors. Our turnkey service gives back the ability to focus on the business.

**BENEFITS**

### Improve efficiency and reduce costs

Leverage specialized network DBAs from initial setup of the IT infrastructure to continued tuning and monitoring for ideal performance.

### Guaranteed security and reliability

Optimize network connection and architecture with committed service levels, geo-redundant backups, SOC audit and secured off-site data retention.

### Flexibility to grow and adapt

Eliminate hardware procurement and maintenance with an elastic cloud that can grow capacity quickly as your business does.

**SERVICES**

24x7 Support • Data Protection • Expert Trained Staff • Guaranteed SLAs •  
Optional Managed Disaster Recovery • Optional SQL Clustering
