

WO INTEGRATIONS

FOR PARTNERS

Data extracts and integrations

In an increasingly complex industry, media companies must evolve rapidly to capitalize on new revenue opportunities. However, as our customers attempt to utilize disparate systems to meet their needs, inconsistent data and workflow inefficiencies can stifle their success.

Vendors must provide agile software that moves at the pace of today's media world. *WO Integrations* enables certified 3rd parties to seamlessly integrate their best-of-breed solution with WideOrbit's robust platform to create a more comprehensive, valuable offering. Drive client growth and satisfaction while reporting higher product ROI with integrated solutions tailored to your client's unique business needs.

BENEFITS

Brand awareness

Join WideOrbit's list of certified 3rd party vendors to be promoted as one of our trusted partners.

Customer satisfaction

Offer a variety of licensable modules and data APIs to add significant value to your customer experience and increase customer retention.

Expanded reach

Leverage WideOrbit's partner community and integrations to grow new business across the industry's largest traffic footprint.

SERVICE COMPONENTS

Licensable Modules • Pre-built Data APIs • Custom Development
