

WIDEORBIT PROFESSIONAL SERVICES

Best-in-class software training

In addition to adopting new business processes, media companies must also keep current staff up to speed on the latest system functionalities while training new employees to be equally effective.

WideOrbit's Professional Services team ensures consistent and efficient system use across the organization. Our new and refresher trainings help your teams make the most of available features, so they can accelerate goals and drive growth by better understanding essential tools and how to use them.

Benefits

Better help, faster

Reduce support calls and receive customized help from dedicated product and industry experts.

Optimize team use

Increase user ease and efficiency during times of employee turnover, staff growth, system enhancement, and the day-to-day.

Enhance product understanding to increase ROI

Learn system features, adjust workflows, and implement best practices to fully capitalize on system benefits.

Training to meet your unique needs

New Feature Training | New Staff Training | Refresher Training | Upgrade/Version Training
