

## WO PROFESSIONAL SERVICES

### Best-in-class software training

Along with adopting new business processes, companies are perpetually tasked with keeping current employees up to speed on the latest system functionalities and quickly training new employees to be just as effective.

WideOrbit's Professional Services team ensures our system's use across the company is consistent, efficient, and makes the most of available features through a variety of new and refresher trainings. Accelerate goals and drive growth by understanding essential tools and how to use them.

#### BENEFITS

#### Better help, faster

Reduce support calls and customize help with dedicated, deeply-knowlegable product and industry experts.

#### Optimize team use

Increase user ease and efficiency during times of employee turnover, staff growth, system enhancement, and the everyday.

#### Enhance Understanding and ROI

Learn system features, adjust workflows, and implement best practices to fully capitalize on system benefits.

#### TRAINING TO MEET YOUR UNIQUE NEEDS

New Feature Training • New Staff Training • Refresh Training • Upgrade/Version Training
